Oil News.

Aug. 27, 1920.

Medina Oil Development Co. resumed
drilling last Saturday and the well is
down 305 feet. We struck oil from
142 feet to 277. The well is now mak-
ing about one barrel of oil daily. We
are well pleased with the present indi-
cations and are very confident of open-
ing as good an oil field—or better—as
there is in Southwest Texas. Quite a
number of people visited the well this
week and one of them was a man from
Somerset oil field, who has interests in
four or five wells there and he is fam-
iliar with the formations of this county
and he says there is no doubt in his
mind but that we will get commercial
oil in this well.

Mr. and Mrs. R. Noonan, Mr. and
Mrs. H. Hartman and Mesdames
Boone, Hutzler and Pike visited the
well Thursday and were delighted with
the prospects.

Certain unscrupulous bottlers are offering for sale
soda water, bottled in bottles bearing our name and
trade marks—and we beg to caution our dealer cus-
tomers, and others, to accept no bottled soda water,
bottled in bottles bearing our name and address, ex-
cept from us.

BOTTLEERS, WHO ARE AFRAID, FOR SOME
REASON, TO SELL THEIR GOODS UNDER THEIR
OWN NAME, OR BRANDS, DO NOT DESERVE
PUBLIC CONFIDENCE.

For the protection of the consumer, the Federal
Pure Food Law requires that all containers, pack-
ages, boxes, cans, BOTTLES, etc., containing FOOD
and DRINK, offered for human consumption, shall
bear the true name and address of the manufacturer
or bottler, of such FOOD and DRINK.

All we ask is a square deal—you believe in fair
play—so please help us overcome this evil practice
of deceiving the consumer and abusing our brands
and name, by refusing to buy or sell bottled goods,
put up by any bottler, who is afraid to assume the
responsibility of selling his goods in bottles, brand-
ed with HIS OWN NAME AND ADDRESS.

OUR PRODUCTS—COCA-COLA, DELAWARE
PUNCH, ORANGE and LEMON CRUSH, and BUCK
BRAND Soda Waters, are bottled in strict con-
formity with all PURE FOOD LAWS—and are guar-
anteed pure and wholesome, within the broadest
meaning of these terms.

Cattleman, Injured, Lives 7 Days in Arizona Desert.

El Paso, Tex., Aug. 20.—A rare in-
stance of human endurance has been
shown by Jake Filleman, a cattleman,
who is recovering at a Globe (Ariz.)
hospital after having lain with a broken
thigh on a bare Arizona hillside for
seven days and nights without shelter,
food or water.

The mishap occurred 12 miles from
Geronimo, Filleman's leg being broken
when he was thrown from a mule
which ran away. Filleman, without
even a hat for shelter, used one of his
gloves for a pillow and the other as
protection for his eyes from the burn-
ing sun. He managed to drag him-
self to a bush where there was a little
shade.

Filleman had sharpened his knife
and decided to end his misery on the
seventh night if no help came. Help
came. Two fellow range riders fol-
lowing his trail until they found him
under the bush, his tongue swollen,
apparently almost dead from thirst,
hunger and exposure.—S. A. Express.

Mr. Filleman was raised in Medina
County, is a brother to our fellow
townsman, Chas. Filleman, and has a
host of friends here who will be grieved
to learn of his most terrible acci-
dent, and who sincerely trusts that he
will make a good recovery.

J. W. Griffiths blew in Wednesday
night from quite an extended trip
through the Middle and Western States,
his peregrination consuming about one
month. Mr. Griffiths went from here to
Iowa. After attending to the busi-
ness requiring his attention in that
state, he took Greeley's advice and
went west, stopping when he butted
into the Pacific ocean on the beach in
California where he visited Mrs. Griffiths
and the bairns. Leaving there he
journeyed into Nebraska, but Billie
Bryan being out on his chautauqua tour
and failing to remit any part of the
door receipts, Mr. Griffiths became indig-
nant, shook the dust of the state from
his feet and headed for dirty, political,
mud-slinging Texas. He says he visited
some fine country and all sections vis-
ited showed magnificent crops except a
small section around Greeley, Colo-
rado. Mr. Griffiths left Mrs. Griffiths and
children at Rondo Beach, California. 44

Cannot Praise this Remedy too Highly

THE WAY ONE LADY FEELS AFTER SUFFERING TWO YEARS

Judging from her letter, the misery and wretchedness endured by Mrs. Charlie Taylor, R. F. D. No. 1, Box 144, Dillon, S. C., must have been terrible. No one, after reading her letter, can continue to doubt the great healing power of PE-RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors, who gave me up. I then took PE-RU-NA and can truthfully say I am well. When I began to use PE-RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise PE-RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. I advise all sufferers to take PE-RU-NA."

As an emergency remedy in the home, there is nothing quite the equal of this reliable, time-tried medicine, PE-RU-NA. Thousands place their sole dependence on it for coughs, colds, stomach and bowel trouble, constipation, rheumatism, pains in the back, side and joints and to prevent the grip and Spanish Flu. To keep the blood pure and maintain bodily strength and robustness, take PE-RU-NA. You can buy PE-RU-NA anywhere in either tablet or liquid form.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 35 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 35, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Theford's Black-Draught standard, household remedy. Every member, of every family, at times need the help that Black-Draught gives in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly and gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. 25c. a package—One cent a dose. All druggists. J. C.

D. B. McMillan has sold his 200 acre farm on Francisco, west of town, to Frank Brown and Ralph Noonan of Hondo, at \$33 an acre. These Hondo men first tried to lease the land for oil purposes, it is said, but were unable to do so, and so they bought it. The tract was in the lease to Kimball people for the second well, which the company seems not to be progressing with at present. Messrs. Brown and Noonan are in the oil game at Hondo, we are informed, and this purchase may, or may not have any connection with the oil business.—Devine News.

Cotton News.

Austin, August 20. The Following given out by the State Agricultural Department.

The cotton market is going down, the cause being that cotton is being sold at the decline. Immediate steps should be taken by the growers, to stop the decline and advance the price. We note in the press that merchants are not placing orders for cloth, and for this reason that mills are refusing to buy cotton, which accounts for a declining market.

If the farmers continue to sell cotton on the decline, how can they expect those gambling in the price on the exchanges, to bet it higher than the farmers are willing to take for cotton? So long as they are willing to sell cotton at a decline, how can the mills be expected to buy cotton, or the merchants to buy cloth? Would you buy an article this week which you expected would be cheaper next week? Those picking cotton have it in their power to advance the price and save themselves from undue loss. Why not do it? Why lose \$75 to \$100 per bale on their cotton, and make it that much harder for the central and northern belt farmers to advance the market?

Those now picking are the only ones who can offer resistance to a decline, or encourage a decline. They are the only ones who can offer encouragement to the bulls to bet the price up or to the bears to bet it down. Which will they do? It is up to them. It is in their power to name the price of their cotton. No one will offer more or bet the price higher, for any article, than the party having it for sale is willing to take for it. This is as true of cotton as any thing else. The only way to hold up or maintain price, is to refuse to sell for less. To do this with cotton, those to whom the farmers are in debt, should mobilize their credit and influence behind the farmer, and aid and encourage him not to sell on a declining market, or at a price that is not profitable.

Since every man has a different guess as to what a profitable price is, the State Agricultural Department has farmers in all sections of the State keeping record of cost of production. In this way the average cost, based upon the estimated yield per acre by the government, September first is found, and to cost a reasonable profit is added. This will be given out at the State Farmers Institute meeting to be held in Austin September 8th, 9th and 10th. It is a State Agricultural Department meeting, and every body is welcome.

Call your people together, talk things over and take action. If the sale of cotton stops a few weeks and then sells as the demand is hungry for it, no one will be hurt. Such action will produce results and should not be delayed. Give notice of your action to the press. Remember this is a State and Nation-wide movement. Immediate action for self protection is the duty of all farmers, and all friends of the farmers.

W. B. YEARY, Cotton Marketing Specialist, State Department of Agriculture.

WAS IN BED FOR SIX LONG MONTHS

Was Able To Be Up In Three Weeks After Taking Tanlac—Gains Twenty Pounds.

"I was in bed for six long months with stomach trouble and rheumatism and Tanlac alone deserves the credit for my recovery," said George Greigoire, popular longshoreman, of 2718 3rd Avenue, Seattle, Wash. "I have gained twenty pounds and feel like I was never sick a day in my life," he continued.

"My trouble started a year ago. My appetite left me and what I forced myself to eat would cause a severe pain in my stomach and shortness of breath. Meats were almost like poison to my system; I got as weak as a kitten and the rheumatism laid hold of me so bad I could hardly drag myself about. My kidneys seemed to give way, too, and my back hurt so I couldn't stoop over. My head ached like it would split and I would get so dizzy I had to hold to something to keep from falling. I lost sleep and weight and was completely down and out."

"Tanic helped me so much that I was out of bed in three weeks and now I am like a different man. All my troubles are entirely gone, I am back at work every day and do my work so easily I surprise the men who work with me. I never felt better in my life and I give Tanlac all the credit for my splendid health."

Tanic is sold in Hondo by W. H. Windrow; in Castroville by Joseph Courand & Co.; and in Dunlay by Louis A. Haby.

You can't afford to be without Insurance. Life and Accident. O. H. MILLER writes a good policy. He wrote over \$25,000 in past twenty days.

Here Are the Features of the Case 10-18 Tractor That Will Interest You

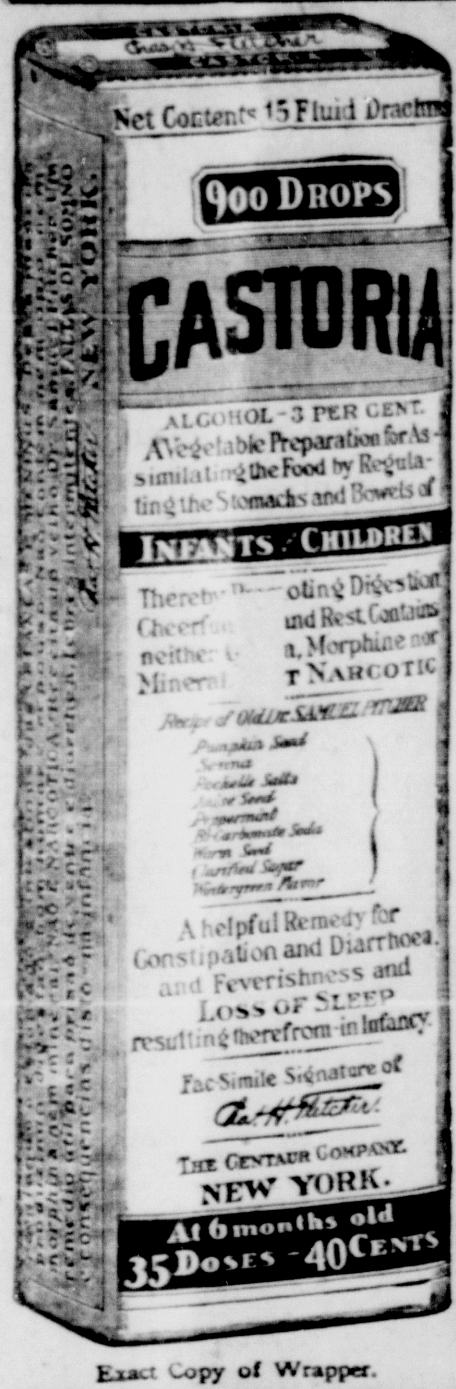

- 1 One-piece cast main frame, forming dustproof housing for rear axle, bull pinion shaft, transmission and the bearings for these parts. Also a base for motor. This construction brings rigidity and prevents disalignment.
- 2 All traction gears are cut steel, enclosed and running in oil. No bevel gears, chain, worm or friction drive parts.
- 3 Case air washer delivers clean air to carburetor. No grit nor dust gets into cylinders to minimize their efficiency and shorten their life.
- 4 Four-cylinder Case valve-in-head motor. Removable head. Motor is set crosswise on frame, affording use of all straight spur gears. This conserves power.
- 5 Case Sylpho Thermostat controls cooling system and insures complete combustion of kerosene in the motor. Prevents raw fuel from passing by pistons and diluting oil in crank case.
- 6 Weighs about 3,400 pounds, little more than a team of horses. Low and compact with short wheelbase. Turns in 22 ft. circle. Stays on all fours.
- 7 Rated 10 horsepower on drawbar, but develops nearly 14 horsepower. Rated 18 horsepower on the belt, but delivers about 24 horsepower. This insures abundant reserve power.
- 8 Belt pulley mounted on the engine crank shaft. No gears used to drive it. Pulley is part of the tractor, not an extra-cost accessory.
- 9 All interior motor parts lubricated by a combination pump and splash system. Speed governor, fan drive and magneto are dustproof and well oiled.
- 10 Complete accessibility. No dismantling necessary. Removable covers permit you to get at parts quickly.
- 11 Hyatt roller bearings in rear axle, bull pinion shaft and transmission case. Kingston ignition and carburetor. Five-piece radiator with a cast frame. Core, fan and copper tube; non-clogging type.

These are Case superiorities that will interest you, and worth your careful consideration. Call at our store for further particulars.

Sixteen Good Reasons for Joining the American Legion.

Many ex-service men are asking what the Legion is doing and just what it expects to do. In order to assure prospective members that they are not being asked to join an organization without some mighty good reasons, the following sixteen advantages of belonging to the Legion are herewith given:

1. The Legion has obtained from Congress increase of base pay to disabled men from \$30 per month to \$80.
2. The Legion through its service division at National Headquarters and War risk officers in every State, has cooperated with the War Risk Insurance Bureau, thereby adjusting thousands of claims for compensation for dependents of men who have died, and disabled men.
3. The Legion first disclosed the failure of the Federal Board for Vocational Education to do its duty toward disabled men. It brought about Congressional investigation of the Board and subsequent reforms. Through the National Vocational officer at headquarters and state vocational officers it has devised a plan of co-operation with the Board which should speedily solve the vocational rehabilitation problem.
4. The Legion helped to obtain preference for ex-service persons and their widows in civil service appointments. Special preference for disabled men.
5. The Legion drafted and put before Congress the fourfold optional compensation bill.
6. By co-operation with Federal, State and local employment services, obtained work for thousands of ex-service men just out of uniform.
7. The Legion on May 30th decorated the graves of every comrade who sleeps on the fields of the A. E. F.
8. The Legion published a live, alert, interesting magazine. The Weekly goes to Legion members and the public, through news stands. No additional charge is made to members for the Weekly.
9. The American Legion is the most powerful force for 100 per cent Americanism in existence today. It has met crises without flinching, always on the side of law and order. In numerous instances of disorders and disaster, such as fire or flood, it has always stood with the constituted authorities for law and order.
10. The Legion is not opposed to union labor. Samuel Gompers says there is no reason why a union man should not join the Legion, as tens of thousands have. Neither is the Legion opposed to the "Open Shop." Its position is absolute neutrality.
11. The Legion does not attempt to interfere with the rights of citizens. One example where the Legion interfered with the exercise of the rights of a citizen who acted within the law. A Legion member can strike or act as a strike breaker, whichever he deems his right, so long as he breaks no law.
12. The Legion does not act in the selfish interest of its members. The Legion has never asked whether a man or a group of ex-service men, who need help, were actually Legion members. In fact most of the disabled and needy it has aided were not Legion members at the time the Legion aided them. The Legion fights for all ex-service men and all real Americans.
13. The Legion has condemned some beneficial things. It depends upon what you think is beneficial. Sometimes individual posts condemn or approve by resolution something or person not approved or condemned by the Legion as a whole.
14. The Legion will put in touch with men you want to be united with. It will give you a place in patriotic community interest. All Legion posts have certain social advantages.
15. The Legion has the greatest potential power of influence in America. YOU must help to keep it right.

CONFIRMED TESTIMONY.

The Kind Hondo Readers Cannot Doubt.

Doan's Kidney Pills have stood the test. The test of time—the hardest test of all. Thousands gratefully testify. To quick relief—to lasting results. Hondo readers can no longer doubt the evidence.

It's convincing testimony—twice-told and well confirmed. Hondo readers should profit by these experiences.

Thos. McCall, carpenter, Hondo, says: "I came down with an attack of kidney trouble. I had such a severe pain that I could hardly stoop over or lift anything. My back pained all the time and made it difficult for me to do my work. I had heard Doan's Kidney Pills highly spoken of so I bought some at Windrow's Drug Store. Doan's helped me right away and two boxes removed the trouble."

Mr. McCall gave the above statement May 29, 1915, and on May 5, 1919, he added: "I have used Doan's Kidney Pills a few times for a slight backache since they cured me four years ago. I think just as much of Doan's as ever."

Price 60c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. McCall had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy complexion, indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

LEARN VALUE OF GOAT'S MILK

Americans Beginning to Realize the Fine Qualities of Milk Given by Humble "Nanny."

In Europe, whence the best milk goats still come, the value of goat's milk has long been recognized. In Italy the goats are driven about city, town and village streets in flocks, milked at the doors of the goatkeeper's patrons. In Paris, at least until the outbreak of war, the nurses or "nourishers" regularly took their little charges to the Pre Catelan to drink warm goat's milk. In England many a "county family" maintains one or more goats in behalf of the children, a practice steadily increasing in the United States, particularly in the East and in California.

Time was, and not very long ago, when the keeping of a pet goat in the family backyard was scarcely a thing to be proud of.

Nowadays the little children of wealthy families play happily with them and are fed their milk whenever possible, says a writer in the Chicago Daily News. The goat has been given a clean bill of health of late years. Goat's milk is richer than that of the cow and equally pleasant to taste, and the goat is not susceptible to tuberculosis. Also the goat has been recognized as a most desirable and useful member of the animal family. Cleanliness and good treatment render her former unpleasantness negligible, and nanny, being naturally endowed with a good disposition, makes a fine pet.

Goats have risen in value since these facts have been acknowledged by the scientific child-lover and student. A good goat of pure breed, say a hornless Tonneburg or Saanen, is worth \$500 and upward. There are not enough such goats in the United States to supply the recent and growing demand by a long way. But the humble, useful and relatively valuable nanny, unknown to pedigree fame, still may be purchased here and there for less than \$50.

When you feel dull, achey and sleepy and want to stretch frequently, you are ripe for an attack of malaria. Take Herbine at once. It cures malaria and chills and puts the system in order. Price, 60c. Sold by W. H. Windrow.

90th Division Reunion.

The Second Annual Reunion of the veterans of the 90th Division will be held in Oklahoma City, September 25, 26 and 27. The 90th Division was originally made up of men from Oklahoma and Texas and trained at Camp Travis, Texas. However, many replacements were received from every state in the union. This Division took part in the St. Mihiel and the Meuse-Argonne offensives and was one of the divisions honored by a place in the Army of Occupation in Germany. Every man who trained or served at any time with this division is cordially invited to attend the reunion. The 90th Division has permanent headquarters in Dallas, Texas, in charge of Arthur J. Reinhart, Secretary.

Special rates have been granted by the railroads from all points in Oklahoma and Texas to all veterans of the 90th Division attending the Second Annual Reunion of the 90th Division which is to be held in Oklahoma City, September 25, 26 and 27, according to work received by Arthur J. Reinhart, Secretary of the 90th Division Veterans Association of Dallas. These dates mark the first three days of the Oklahoma State Fair and in addition to this attraction, Mayor Walton has promised to make it "the best entertainment ever given anyone and that the city will be turned over to the former soldiers during their entire stay in the city."

A bully time and a royal welcome awaits these vets.

Don't let your children suffer. If they are fretful, peevish, pury or cross, give them Hollister's Rocky Mountain Tea—a harmless but safe laxative for children. 35c. W. H. Windrow.

The Remedies.

"Most of the remedies for the social unrest," said Admiral Sims at a dinner in Washington—"and the social unrest is a very deep and menacing thing—most of the remedies for it remind me forcibly of little Johnny Jones."

"Johnny Jones, you know, was studying botany, and he declared that he had an infallible way to tell the difference between mushrooms and toadstools."

"When you get violent spasms," said little Johnny, "with cramps, swelling of the feet, and partial loss of vision endin' in insanity and death—then it ain't mushrooms."

Might Find It Difficult.

At the corner of a New York street a tall man stood with a map in his hand, at which he gazed with a puzzled air. A kindly passerby tapped his shoulder and offered to direct him, upon which the man with the map smiled, showing several gold teeth as a result.

"I reckoned I'd figure it out vurry well," he said, "with this little old map, but I seem kinder beat."

"Yes," said the other, soothingly, "I dare say you'd have managed verry well. But you're looking at a map of Chicago."

Cause for Indignation.

"Confound them good roads fellers to thunder!" grumbled the turtle-headed yeoman. "They held a meeting in the county seat tuther day to foist good roads on us, whether we wanted 'em or not. A lot of us fellers made it up to go in and protest in the name of our free American citizenship and tell 'em what was what. And I got stuck in the mud six miles out and when I finally reached town the meeting was all over."—Kansas City Star.

She—Oh, yes; bind up the broken portion with a gold band, bathe with orange-blossom water, and apply plenty of confetti. Guaranteed to be well in a month.

What Did She Mean?

Little Jimmie Pester—You promised to take me to the zoo to see the animals fed.

His Mother—I know I did, dear, but we won't have time. Your father will be home to dinner in a few minutes and you may sit up and go to the table with him.

One Good Reason.

"Why didn't you show fight when those bank robbers came in," asked the president.

"Not much," replied the clerk. "The bank is insured and I'm not."

GOOD CITIZENSHIP.

Money for you at 5½ per cent

And on 34 years' time too. Sounds pretty good, doesn't it? Nearly 14,000 Texas farmers have borrowed about \$40,000,000 at 5 or 5½ per cent interest and on 34 years' time during the past three years. Ask any of them what it has meant to them.

Would you like to borrow some at such a rate and on such terms?

The Federal Land Bank

Made these loans, and as soon as the decision in regard to the tax-exemption feature of bonds is handed down by the Supreme Court, probably in October, it will be ready to be lending money to Texas farmers again on such terms and its supply of money to be will be inexhaustible.

It will lend you the money to pay off indebtedness on your farm and to make needed building improvements if it is your homestead, to buy equipment, livestock, etc., if it is your homestead, and will lend you money to buy a farm.

Southland Farmer

The past three years has been the biggest single factor in Texas in bringing the farm of Texas and the Federal Land Bank of Houston together for business. Let it help you.

Do you really know anything about

The Non-Partisan League?

An organization, for political purposes only, embracing today 300,000 of the substantial home-owning farmers of a dozen states is a force that is to be reckoned with today and the years to come. It is idle folly to call such farmers, the conservative force of the nation, socialists, bolsheviks, or any other names. Unless there were strong reasons its existence such a movement could not spring up and attain such strength in less than half dozen years.

What are these reasons? How is the organization built? What are the fundamental principles behind it that appeal to conservative, home-owning farmers of Texas and other states? How does the organization function? What has it accomplished in North Dakota where it controls all branches of the state government? What are its aims in Minnesota where it will dominate the next legislature, and possibly elect the next governor? Nebraska? In Washington? In South Dakota and other states?

What of the movement in Texas, where already men selected and endorsed by it to be members of both Senate and House of the next legislature?

Southland Farmer

Has kept up with this movement from its very beginning, gets all the facts in regard to it from authoritative sources, and gives you the accurate information you want. Whatever ideas you may have about it now it is well worth your while to know exactly what the movement means in Texas, as well as in other states, and what it may mean to you.

The Farm Labor Problem

Is another big question in which everybody is interested. Labor on the farm, whether that of the farmer, his wife, his children, hired men, determines the question of whether or not the nation shall go hungry. It is also a vital question affecting the prosperity of farmers, and the financial returns of farming as a business.

Southland Farmer is publishing a series of articles on this question. Much has been said and written about it. But these articles are something out of the ordinary. They are not only analytical but highly constructive. They give reasons why, and they point out some things that must be done to remedy conditions.

The American Cotton Assoc'n The Federal Land Bank Non-Partisan League Farm Labor

Are but a sum of the big questions of the day that are dealt with in a big way by Southland Farmer, in addition to the general run of accurate and helpful farm information. No other paper of any sort in Texas or anywhere else gives or can give such full and accurate information about these and other questions concerning the farmer and the great business of farming.

You would not miss the information about any one of these subjects for the 25¢ it would cost you to read Southland Farmer for a full year. If you want the first of the series on "The Farm Labor Problem" ask for September first issue. Published on 1st and 15th of each month.
